

**UGANDA CATHOLIC MEDICAL BUREAU
UGANDA CATHOLIC SECRETARIAT**

**TOOL FOR MONITORING STOCK OF DRUGS AND SUPPLIES FOR MALARIA AND AIDS
TREATMENT IN LOWER LEVEL HEALTH FACILITIES OF RCC DIOCESES IN UGANDA**

- i. Name of Diocese _____
- ii. Name of Health facility being reported on _____
- iii. Name of person reporting _____
- iv. Title of person reporting _____
- v. Date of report _____
- vi. Quarter being reported on _____

Instruction

Please select one Health Centre III and one Health Centre II to monitor and report on consistently throughout the year. These should serve as litmus test for all the health centres in the diocese. If you have no health centre II then report on 2 HC IIIs. Similarly if you have no HC IIIs, then report on 2 HC IIs. If a situation develops where you have only one health centre, then report on that. If you have a health Health Centre IV, then choose three health facilities thus having 1 HC IV, 1 HC III and 1 HC II.

	Balance brought forward from previous quarter (A)	Amount ordered in the quarter (B)	Amount actually received in the quarter (C)	Total amount available in the quarter (D)	Amount actually needed in the quarter (number of patients who needed supply) (E)	Amount actually used (F)	Shortage or balance $G = F - E$
HIV Test Kits (No of tests)							
Coartem							
Rifinar (Rifadine + INH)							
Ethambutol							
Pyrazinamide							
INH(300mg)							
INH (100mg)							

If the amount used (F) was more than the amount available (D), explain where the hospital got the additional amount to meet the gap e.g. borrowing etc
